REPORT OF SCHOOL HEALTH WORK

Through the aid of the Red Cross, the Parent-Teacher Association, the Federal Relief Health Program and the parents who could, we have progressed remarkably toward the road of perfect health.

A very successful dental clinic was held by Dr. Fred Meader of Wolfeboro, caring for 51 children who had signed permission from their parents. Now that so much in dental work has been accomplished and such a good start made, it is hoped that the work can be done regularly each year. If this is done each year the work will be easier and less expensive. There are still 24 children who need dental work done. Seven children have been fitted to glasses this year and three have had their tonsils and adenoids removed. Plans are made for four more to be taken care of this spring. One has been examined for hearing by an ear specialist.

It is still hoped that more will be cared for and then the schools of Sandwich will be nearly perfect in health. This work could not have been done without the fine co-operation of all people concerned.

Respectfully submitted,

HELEN NICHOLS, R.N.,
School Nurse.

SUPERINTENDENT'S REPORT

Sandwich is to be congratulated on having good teachers and good schools. It is said that the public schools are the bulwark of American civilization and, if so, cannot be treated in careless manner.

Sandwich is also to be congratulated on having a school board that takes interest in keeping up the school property and sustains the morale of the school organization. During the summer the buildings were inspected and notes taken: Repairs and improvements were then planned. Electric lights were installed at North Sandwich and Whiteface. Painting and repairing were done at North Sandwich, Whiteface, and Center Sandwich. At the latter place the appearance of the building was much improved by fixing the playground apparatus and repairing the woodshed and front porch. Minor repairs at Chick's Corner and Lower Corner put these buildings in comfortable condition.

The School Board sustains the superintendent and teachers in plans for providing books and materials and equipment and in seeking regular and punctual attendance.

It is the wise policy of the board to furnish suitable and sufficient books for the pupils. This year special effort was made to supply language and hygiene books and, by a piece of good business, some of the old books were turned in for exchange to the value of about \$25.

By visiting the schools and by helpful co-operation with the superintendent and teachers, the board supplies needs and removes obstacles in such a way as to improve the value of the school administration. The fine boys and girls of Sandwich should have as many advantages as can be offered.

Visual Instruction

During the fall term, visual instruction was introduced by the use of a motion picture machine run by electricity which is now installed in all but two school-houses. Pictures have been given, bearing on bananas, oranges and corn. Two reels were shown featuring the raising of cotton and making of cloth. A largely patronized picture was given at the Town Hall, showing the experiences of Columbus in the discovery of America. Since we learn more by the sense of sight than in any other way, this work becomes doubly important.

Adult Education

A class has been organized in adult education. Twenty-six people met Lorne B. Hulsman as the teacher and started classes in Current Events, Literature, and Business Law. It is said that adults can learn as well as children and this class bids well for success this winter. We appreciate the kindness of the school board in allowing the use of the Grammar School room for these gatherings. Mr. Hulsman is an old schoolmaster and is being well received in the towns where he is giving these evening courses.

Health Work

The health work in the schools has been going forward. Miss Helen H. Nichols is now the efficient nurse. A dental clinic was held, at which a good amount of work was accomplished. A report from the nurse is included and gives definite figures about the clinic and other corrective work. "A sound mind crowns a sound body." We do well, then, to stress the forming of health habits, both at school and home. Those schools which are fostering warm lunch at noon during the cold weather are to be commended.

High School

Former State Commissioner E. W. Butterfield said not long ago, "Some five million American boys and girls are attending high schools. They are doing this, not for the honor of it, not that they may wear an academic badge, but that they may use education in their daily lives. . . . The ordinary citizen for ordinary life needs three characteristics: social adaptation; many and broad interests; and the ideals and habits of good citizenship."

Sandwich is very fortunate to have at its center a school which can and does supply many and varied needs of the high school students. Quimby School with its able corps of teachers, sustained by wise trustees, offers courses fitting boys and girls to live useful and successful lives in the home town. A fine arrangement of buildings, land and equipment gives opportunity for excellent work. This school has become a real community center for help and direction. Quimby School is making a name for itself and the community in which it is located.
